

# Sunbeam Swimming Club

## Summer Challenge 2024 - Swim Log

For some fun, you can keep a record of the number of lengths you swim each week.

This challenge is to join your team mates to swim 137km, the distance equivalent to swimming around Malta. A total of 5,480 lengths of the pool. We count the lengths each person individually swims each week and total them up.

Date	How it felt. Was it hard, easy, fun, with friends?	Number of lengths	Metres (25 per length)

Remember to share this with your sponsors if they want to see your progress and give you encouragement too.

Every length adds towards our total and everyone at Sunbeam is very proud of you.

Thank you for supporting Sunbeam Swimming Club!
